PROFESSIONAL SUMMARY

IT student at FEU Tech specializing in web and mobile applications, currently an AI Engineer Intern at DEVCON Philippines. Works across UI/UX design and front-end development, from user research and Figma prototypes to React and React Native builds. Two-time Grand Champion, as pitch presenter for Linea and UI/UX designer for IgnisAid, and Programs Head of TICAP 21 at FEU Tech. President's Scholar and Dean's Lister. Seeking roles in project management, front-end development, or quality assurance.

EDUCATION

Bachelor of Science in Information Technology Specialized in Web and Mobile Application

FEU Institute of Technology | Sampaloc, Manila **2023 – Present**

President's Scholar | Dean's Lister

Relevant Coursework: Mobile App Development, Advanced Web Design, User Experience Design, Human Computer Interaction, Object-Oriented Programming, Data Structures & Algorithms, Database Systems, IT Project Management

CERTIFICATIONS

- **PMI Project Management Ready** | Project Management Institute **March 2026**
- **Cisco Certified Support Technician Networking** | Cisco **February 2025**
- **IT Specialist - Python** | Pearson **February 2025**

EXPERIENCE

AI Engineer Intern

Developers Connect Philippines (DEVCON) | Ortigas, Pasig (Hybrid) **August 2026 – Present**

- Helped redesign the official DEVCON website based on the DEVCON 17 theme, *Engineering an AI-Ready Nation*.
- Added features to devcon.plus, where people register for DEVCON events, including HQ officer certification requests.
- Attended developer events through DEVCON, including *Camp Run: Go Agentic with Hermes Agent*, the *MongoDB User Group Meetup*, and the *BetterGov.PH Summit 2026: Building Together*.

UI/UX Engineer Intern

NetAesthetics | Washington, DC (Remote) **June 2024 – September 2024**

- Designed intuitive user interfaces in Figma, translating product requirements into polished wireframes and high-fidelity mockups.
- Conducted user research and usability testing to uncover pain points and validate design decisions.
- Iterated on design solutions based on user feedback, refining flows across web, mobile, and other digital products.

TECHNICAL SKILLS

Languages: Python, JavaScript, PHP, C++, Kotlin
Development: HTML, CSS, Tailwind CSS, React, CodeIgniter 4, Hermes Agent
Systems: Linux, Windows Server 2025, Cisco Packet Tracer, Cloudflare
Design: Figma, Canva, Adobe Photoshop, Adobe Illustrator

PROJECTS

Bloomora

React, React Native, FastAPI, Supabase, Flux AI | Capstone Project

- Web and mobile e-commerce platform for Esting's Flowers International Inc., a florist with branches in Manila and Pampanga.
- Centralizes ordering, payments, delivery tracking, and inventory in one system, replacing decades of manual, memory-dependent workflows.
- Offers two-way customization: customers can pick arrangement materials themselves or describe their vision in text and get a preview generated by the Flux AI model before ordering.

agapAI
Next.js, Supabase, Vercel | Mission: LearnPossible2 2026 AI Hackathon

- AI-assisted platform for anonymous bullying reporting, pattern recognition, and early intervention in Philippine schools.
- Features agapAI Guide, a chatbot that helps students make sense of what happened in English, Filipino, or Taglish, plus anonymous and witness reporting, SOS alerts to school responders, and Pattern Radar for spotting linked cases.

Linea
Next.js, shadcn/ui, Zustand, React Hook Form, Zod, Axios, Tailwind CSS

- Web-based queue and crowd coordination platform where people reserve a spot in line remotely, check wait times, and get notified near their turn, while businesses manage counters and peak hours from a live dashboard.

Plan Axis
Swift, Xcode

- iOS task manager built to help users prioritize, flagging urgent tasks in red and tasks that can wait in yellow so the most pressing work stands out.
- Supports detailed tasks with descriptions and deadlines, quick swipe-to-edit and delete gestures, and real-time updates, with validation that prevents incomplete or accidental saves.

Quillo
Kotlin, Firebase Authentication, Cloud Firestore

- Android journaling app that gives users a secure space to write, with email and Google sign-in, password reset by email, and entries saved to the cloud with Cloud Firestore.
- Includes automatic date and time stamps, a live character count, undo and redo, and Capy, a mascot that greets users when their diary is empty.

LEADERSHIP & ACTIVITIES

Programs Head
Technology Innovation in Capstone Project (TICAP 21) | Sampaloc, Manila **July 2026 – Present**

- Headed the planning and execution of all TICAP 21 events, including the five-speaker seminar *To the Future and Beyond: Exploring the Limitless Possibilities for Budding Careers in Computing Technology* and a three-speaker webinar.
- Oversaw a two-day research colloquium with 43 presenting groups, a booth exhibit, and the Awards Night.
- Drew 500+ attendees to the events, from IT specializations including Web and Mobile Application, Cybersecurity, Animation and Game Development, and Business Analytics.
- Wrote the program flow and host script, and hosted and facilitated the events.

Director for Events
Junior Philippine Computer Society - FEU Tech | Sampaloc, Manila **August 2024 – July 2025**

- Directed the planning and execution of major organizational events, including *Reboot & Map*, *Decrypt & Decode*, *Ctrl + Z: Reboot Our Legacy*, and *Ground Zero: Charting Path to Success*.
- Developed program scripts, presentation materials, and event activities to ensure smooth and engaging execution.

Pitch Presenter
SIKAPTala 2026 Hackathon | Dasmariñas, Cavite **May 2026**

- Pitched Linea, a queue management system that replaces physical lining up with a structured, remote queuing flow, to a panel of judges at the national CS & IT competition.
- Designed the pitch presentation deck to support and reinforce the team's live pitch.
- Won Grand Champion among competing teams nationwide, earning a ₱15,000 cash prize.

UI/UX Designer
Technofair and Pitch Presentation 2025 | Sampaloc, Manila **July 2025**

- Designed the UI/UX for IgnisAid, a mobile app that helps individuals with disabilities call for help and receive assistance during fire emergencies, and wrote the script and voice-over narration for the project's infomercial video, winning Grand Champion among competing teams.
